Career Objective

B.Tech Computer Science Engineering student (Expected Graduation: 2027) with hands-on experience in React.js, Django, JavaScript, and MERN stack development. Currently strengthening my Java programming skills. Developed web applications including a neighborhood marketplace platform, e-commerce website, and healthcare portal. Seeking a software development or web development internship to apply my technical skills, contribute to real-world projects, and grow as a full-stack developer.

Technical Skills

- Programming Languages: C, Java, JavaScript, Python
- Web Technologies: HTML5, CSS3, JavaScript, REST APIs
- Frameworks & Libraries: React.js, Django, Node.js, Express.js (learning)
- Databases: MySQL, MongoDB
- Tools & Platforms: Git, GitHub, VS Code, PyCharm, Vercel, Render
- Core Subjects: Operating Systems, Computer Networks, Database Management Systems

Education

- Bachelor of Technology (B.Tech) - Computer Science Engineering
- Babu Banarasi Das University, Lucknow, Uttar Pradesh
- Expected Graduation: 2027

Projects

LocalLink - Neighborhood Marketplace Platform (MERN Stack Project)

- Developed a web platform connecting users with verified local businesses and service providers.
- Implemented user authentication, business listings, service management, reviews, ratings, and search functionality.
- Built responsive frontend interfaces and integrated backend APIs using React.js, Node.js, and Express.js.
- Technologies Used: React.js, JavaScript, Bootstrap, Node.js, Express.js, MongoDB (MERN Stack).
- Frontend hosted on Vercel and backend hosted on Render.
- Live Demo: <https://local-link-three.vercel.app/>
- GitHub: github.com/Yughhh/Local-Link_Frontend | github.com/Yughhh/Local-Link_Backend

Healthcare Portal

- Built a healthcare management portal using Django and Python.
- Implemented authentication and database-driven functionality.
- Technologies Used: Django, Python, SQL.
- Hosted on Render.

- Live Demo: <https://healthcare-dashboard-3-0cfp.onrender.com/>
- GitHub: github.com/Yughhh/Healthcare_dashboard

E-Commerce Website

- Designed and developed a responsive e-commerce website using React.js.
- Implemented product listings, shopping cart functionality, and responsive UI components.
- Deployed the application on Vercel.
- Technologies Used: HTML, CSS, JavaScript, React.js.
- Live Demo: <https://seller-space.vercel.app/#/>
- GitHub: github.com/Yughhh/SellerSpace

Experience

Deloitte Data Analytics Job Simulation – Forage (May 2026)

- Completed practical tasks in Data Analytics and Forensic Technology.
- Performed data analysis, interpretation, and business insight generation.
- Worked with Tableau dashboards and data visualization techniques.

Certifications

Full Stack (MERN) Summer Training Program

GRAS tech, BBD University, Lucknow

June 22, 2026 – August 5, 2026

- Successfully completed a 90-hour project-based Full Stack Development (MERN) training program.
- Gained hands-on experience with MongoDB, Express.js, React.js, Node.js, API development, and full-stack project implementation.

Soft Skill Program Certificate of Appreciation

Learnovate Enterprises in collaboration with BBD University, Lucknow

Awarded: April 2026

- Recognized for outstanding contribution and successful completion of the Learnovate Enterprises Soft Skill Program.
- Developed communication, teamwork, presentation, and professional workplace skills.

Strengths

- Problem Solving
- Team Collaboration
- Quick Learner

Languages

- English
- Hindi
- Japanese (Basics)
